MIRIAM MUNDAL OLESEN

20.03.1994

SKILLS

C, HTML, CSS, JavaScript, React, Node.js, Python, Lua

Git, SSH, Unity

Algorithms, Data structure, Web development

LANGUAGES

English — Full professional proficiency

Danish — Native

Swedish — Can read and understand

Norwegian — Can read and understand

PERSONAL DETAILS

Address: Punavuori, 00150 Helsinki

Phone: +358 40 328 3680

E-mail: miriamolesen@outlook.dk

PROFESSIONAL SYNOPSIS

A disciplined and creative coding student with experience in working with various coding languages through school work and individual projects. Eager to improve skills and help to solve new and interesting problems in a future workplace.

EDUCATION

FullStack Open

Course is provided by University of Helsinki, Aug 2022 - Present

- Introduction to modern **JavaScript-based web development**.
- Focus on building single page applications with **ReactJS** that use REST APIs built in with Node.js
- **React, Redux, Node.js, MongoDB, GraphQL** and **TypeScript**

Hive Helsinki

Coding school, Oct 2021 - Present

- Part of the '42' network of schools, focus on peer-to-peer learning.
- Taught to code in **C-language** through various solo/group projects.
- Teamwork, time-managing skills and self-development are essential for success in the school.
- My core studies main focus was on algorithms, optimisation and how to manage a large amount of data efficiently.

CS50x and CS50games

HarvardX, Jan 2021 - Dec 2021

- HarvardX coding course *Introduction to Computer Science* and *Introduction to Game Development*.
- Languages included **C, Python, SQL, HTML, CSS, JavaScript, Lua** and **C#**.
- Topics included abstraction, algorithms, data structures, encapsulation, resource management, security, software engineering and web programming.

Åsa Folkhögskola

Swedish dance school, Aug 2018 - Jun 2021

- Classes conducted in both English and Swedish.

Danish sign-language- and written interpretation

Danish bachelor, Sep 2014 - Jan 2018

- Lessons included interpretatiton from Danish/English/Norwegian/Swedish to written Danish/English/Danish signlanguage

WORK

Written interpreter

Høreforeningen, Feb 2018 - Sep 2020

- Experience in interpreting from Danish/English/Norwegian/Swedish to written Danish/English.

MOTIVATIONAL LETTER

MIRIAM MUNDAL OLESEN

-

Dear Nokia,

-

I'm applying for a full-time internship position at your company. I'm searching for an internship in software development and am looking for a place where I would be able to use and improve my skills in C and/or C++ - since your company usually are looking for developers with those skills I can't help but see it as a great opportunity for both parts. The internship is supposed to last approximately 6 months and I'm able to start as soon as possible.

I have studied at Hive Helsinki and done various courses to polish my coding skills.
Due to the peer-to-peer learning environment in Hive, I have learned to take initiative of my own learning. Teamwork becomes very important and you are relyant on the success of your peers in order to progress together. Through project feedback I've developed my soft skills, like how to give constructive critisism and praise to other peoples work. I'm currently working on Univeristy of Helsinkis FullStack Open course that is about modern JavaScript-based web development that I'm hoping to finish by the end of the year.

My focus and drive for self development/learning, means I'm always looking for courses or programs to improve my skillset. I'm not always going to have all the answers but what I bring is the adaptability and skills to find solutions in creative and newfound ways.

Feel free to checkout my previous work on github (github.com/Mundal1994).

If you have any questions feel free to contact me by mail (miriamolesen@outlook.dk) or by phone (040 328 3680).

-

Best regards,
Miriam Mundal Olesen
